Question # 12 of 20 (Start time: 11:28:08 PM, 29 January 2023)

Against which frameworks NESSUS scanner gives configuration auditing feature?

Select the correct option

CYBERSCOPE AND GLBA

FFIEC AND FISMA

CIS and DISA

HIPAA AND HITECH

Which best practices are to be followed for applying security patches?

Select the correct option

- All the updates are necessary to install
- There should be a working backup
- All the updates are necessary to install and working backup
- A good change control procedure and working backup

Question # 9 of 20 (Start time: 11:26:14 PM, 29 January 2023)

Which of the following are considered cumulative and product specific?

Select the correct option

- Service packs
- Qfes,Hotfixes
- Hotfixes,Service packs
- Security patches,Service packs

Which team tests the patches in test environment in vulnerability management process?

Select the correct option

IT operations team

Risk & compliance team

Audit team

Business team

Question # 10 of 20 (Start time: 11:26:52 PM, 29 January 2023)

Which subscription service model QUALYS offers?

Select the correct option

- Quarterly subscription
- Bi-annual subscription
- Annual subscription
- Monthly subscription

Question # 7 of 20 (Start time: 11:24:46 PM, 29 January 2023)

Which one of the following is considered the first step in a vulnerability scan?

Select the correct option

- TCP/UDP service delivery
- Firewall detection
- Checking if the remote host is alive
- Port scanning

Which of the following scan is deeper and gives more detailed scanning results?

Select the correct option

- Asset discovery scan
- Un-credentialed vulnerability discovery
- Initial options profile scan
- Credentialed vulnerability scanning

Which of the following statement is correct?

Select the correct option

- CVE is superset of NVD
- NVD is an open standard for assigning vulnerability impacts
- NVD is superset of CVSS
- NVD is superset of CVE

Question # 4 of 20 (Start time: 11:22:38 PM, 29 January 2023)

Which team tests the patches in test environment in vulnerability management process?

Select the correct option

Risk & compliance team

Business team

Information security team

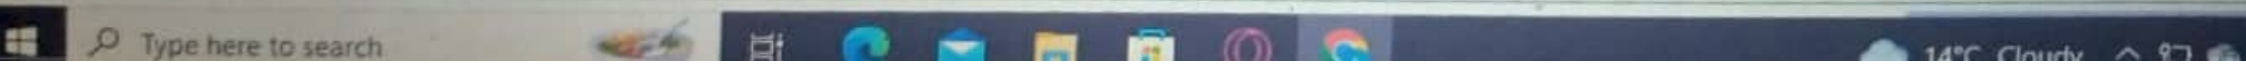

IT operations team

Question # 3 of 20 (Start time: 11:21:55 PM, 29 January 2023)

Which activities are carried out at stage 1 of transformation model?

Select the correct option

- Establish a MSB
- Apply CIS/DISA benchmarks
- Take stock of the assets and prioritize
- All of the given

Question 2 of 25
Which of the following tools are offered free by QUALYS?

Select the correct option

Web application firewall

PCI compliance

Web application scanner

Browser check

Question # 1 of 20 (Start time: 11:18:06 PM, 29 January 2023)

Which of the following security practices come under "governance" function of software assurance maturity model?

Select the correct option

- Design review, code review, security testing
- Education & guidance, policy & compliance, strategy & metrics
- Environment hardening, vulnerability management, operational enablement
- Threat assessment, security requirements, security architecture

Continuous monitoring feature of QULAYS is very useful for?

Select the correct option

- Checking compliance of CIS benchmarks
- Vulnerability management of assets
- Watching critical changes
- Scanning of web application

Question # 19 of 20 (Start time: 11:07:58 PM, 29 January 2023)

Which screen is displayed immediately after login screen in NISSUS scanner?

Select the correct option

- | | |
|-----------------------|---------------------------------|
| <input type="radio"/> | Vulnerability management screen |
| <input type="radio"/> | Policy compliance screen |
| <input type="radio"/> | Dashboard |
| <input type="radio"/> | Scan screen |

Which of the following statement is correct?

Select the correct option

- NVD is superset of CVE
- NVD is superset of CVSS
- CVE is superset of NVD
- NVD is an open standard for assigning vulnerability impacts

Against which frameworks nessus scanner gives configuration auditing feature?

Select the correct option

<input type="radio"/>	SCAP AND SOX
<input type="radio"/>	CYBERSCOPE AND GLBA
<input type="radio"/>	CIS and DISA
<input type="radio"/>	HIPAA AND HITECH

Which team tests the patches in test environment in vulnerability management process?

Select the correct option

Business team

Risk & compliance team

Information security team

IT operations team

Which activities are carried out at stage 1 of transformation model?

Select the correct option

- | | |
|-----------------------|---|
| <input type="radio"/> | All of the given |
| <input type="radio"/> | Take stock of the assets and prioritize |
| <input type="radio"/> | Establish a MSB |
| <input type="radio"/> | Apply CIS/DISA benchmarks |

Which of the following security practices come under "construction" function of software assurance maturity model?

Select the correct option

- | | |
|-----------------------|---|
| <input type="radio"/> | Education & guidance, policy & compliance, strategy & metrics |
| <input type="radio"/> | Threat assessment, vulnerability management, security testing |
| <input type="radio"/> | Design review, code review, security testing |
| <input type="radio"/> | Threat assessment, security requirements, security architecture |

Question # 13 of 20 (Start time: 11:04:50 PM, 29 January 2023)

Policy & compliance practice of "governance" function of software assurance maturity model is focused on _____

Select the correct option

- | | |
|-----------------------|--|
| <input type="radio"/> | On arming personnel involved in software lifecycle with knowledge and resources to design develop and deploy secure software |
| <input type="radio"/> | On proactively specifying the expected behavior of software with respect to security |
| <input type="radio"/> | Understanding and meeting external legal and regulatory requirements |
| <input type="radio"/> | On establishing a framework within an organization for a software security assurance program |

How many TCP and UDP ports are scanned in a default scan?

Select the correct option

- 1900 UDP ports and 180 TCP ports
- No ports are scanned by default
- 1900 TCP ports and 180 UDP ports
- 65, 535 TCP ports

What information we get from open TCP and UDP ports?

Select the correct option

<input type="radio"/>	Which OS is running on the host
<input type="radio"/>	Whether host is alive or not
<input type="radio"/>	Which services are running on host
<input type="radio"/>	Network details of the host

Which of the following are common vulnerability scanners?

Select the correct option

<input type="radio"/>	Nessus & rapid7
<input type="radio"/>	Openvas & qualys
<input type="radio"/>	Forcepoint & redwoif
<input checked="" type="radio"/>	Nessus rapid7, Openvas & qualys

Which of the following statement is correct?

Select the correct option

- NVD is superset of CVSS
- NVD is superset of CVE
- NVD is an open standard for assigning vulnerability impacts
- CVE is superset of NVD

Which of the following modules are displayed on home screen of qualys trial version?

Select the correct option

- Asset review and administration
- File integrity monitoring
- Vulnerability management and policy compliance
- Threat protection
