

CS408 (Human Computer Interaction)

File made by: Bint E Hawa

Total marks = 39

MCQS = 18 marks (one each)

Subjective = 5 questions (total marks= 21)

Current Paper 1:

Q1. Which display device is very cheap and has fast enough response times for rapid animation coupled with a high color capability? (3 marks)

Ans: pg. 119

Q2. What outputs will be generated from the following data? (3 marks)

Computer + Microwave =?

Computer + data =?

Computer + Information=?

Computer + Bank=?

Q.3. Advantages and Disadvantages of speech input. (5 marks)

ans. Pg. 114-115

Q.4. A person wants to buy a product from a website but he cannot find the required information about the desired product, what can be the possible outcomes? (5 marks)

Q.5. The type of information that is important to gather from stakeholders? (5 marks)

Ans. Pg. 168

Current Paper 2:

Q1. Lecture 14. (Topic 14.3 The interaction framework) (3marks)

Q.2. Lecture 4: Difference between user experience goals and usability goals? (3 marks)

Q.3. Lecture 10: pg.88 Topic: Incorporating Language processing in applications (5 marks)

Q.4. Lecture 22: Difference between customer and corporate goals? (5 marks)
