Array

Function

Which of the following statement is TRUE regarding default ResultSet?

Choices:

The default ResultSet is updatable and moves only forward.

The default ResultSet is not updatable and moves only forward.

The default ResultSet is not updatable and moves forward as well as backward

The default ResultSet is updatable and moves forward as well as backward.

Consider the following code segment.

```
String sql = "SELECT * FROM Table";  
PreparedStatement pstmt = con.prepareStatement(sql,  
ResultSet.TYPE_SCROLL_INSENSITIVE, ResultSet.CONCUR_UPDATABLE);
```

Which of the following option is true?

Choices:

- It creates Updatable/Scrollable ResultSet which moves forward only.
- It creates Updatable/Scrollable ResultSet which moves backward only.
- It creates Updatable/Scrollable ResultSet which moves forward as well as backward.
- It creates default ResultSet which moves forward as well as backward.

Which of the following 'statement' object is used for executing precompiled SQL statements?

Choices:

- Statement
- PreparedStatement Correct answer solved by hadi
Cell No:03228043306
Email: usmanraj20@gmail.com
- CallableStatement
- None of the given options

IndexOutOfBoundsException occurs when:

Choices:

File is not present.

Incorrect data type conversion is forced to do.

Command line arguments are not passed.

Number is divided by zero.

Node stream fall into which category of streams?

Choices:

Character

Byte

Correct answer solved by hadi
Cell No:03228043306
Email: usmanraj20@gmail.com

Integer

Double

If we do not provide implementation of any one method of interface in a class that implements interface, class will:

Choices:

- Provide default implementation check it
- Not compile
- Run having no error
- Become abstract

If we want to handle mouse Clicked, released or pressed, Which of the following interface do we need to implement?

Choices:

- MouseMoved
 - MouseDragged
 - MouseMotionListener
 - MouseListener
- Correct answer solved by hadi

Email: usmanraj20@gmail.com

moaaz

Grid layout

GridBag layout

Which of the following is not true about constructor?

Choices:

Same name as class name

Does not have any parameter(s)

Correct answer solved by hadi
Cell No:03228043306
Email: usmanraj20@gmail.com

No initialization list

Does not have return type

A class that is defined in another class is called _____.

Choices:

- Private class
- Public class
- Inner class
- Derived class

Right

Which driver is the network type driver from the following?

Choices:

- Type 1
- Type 2
- Type 3
- Type 4

Correct answer solved by hadi
